

## **BUSINESS ADVISOR**

**Michael Beaubaire, MD, MBA**

Dr. Michael Beaubaire is the Principal of Beaubaire LLC, a Life Sciences focused advisory group. He has executed scientific diligence, performed entrepreneurial operating services, and devised capital market strategies to emerging life science companies spanning several billions of dollars in value. Michael has over 25 years of experience in health sciences-physician, investment banker, strategic and licensing advisor, principal investor, and entrepreneur.

In 2021, Michael became a Business Advisor to TargaCell. Concurrently, he is the EVP, Business Development and Acting CMO for Rejuvenate Bio, an emerging gene therapy company exploring treating chronic illnesses of aging. He also serves as an Entrepreneur in Residence for the Rosalind Franklin University of Medicine and Science (RFUMS) Helix 51 Incubator and Innovation Research Park.

He was the CEO, and is an Executive Advisor, of Angiotensin Therapeutics, Inc., a Northwestern University spinout focusing on therapies for Covid-19 infection and kidney disease. As the Chair of the Scientific Advisory Board of Lincoln Park Capital LLC, a fundamental equity investor in life sciences, he was responsible for assessing clinical and scientific opportunities in micro-cap and private life science organizations for potential fund investment.

Dr. Beaubaire earned his BS from the Wharton School and his concurrent BA from the College of Arts & Sciences, both with Honors at the University of Pennsylvania. He received his Medical Doctorate degree and trained as an Internal Medicine resident from Northwestern University's Feinberg School of Medicine and McGaw Medical Center.
